AGENDA

			Enc.	Estimate

3)	**Declarations of Interests** and Requests for Dispensations	Chair		
4)	**Public Session –** 20 minutes set aside			
5)	**NDP – Site Options and Assessment Draft Report:**	Chairman	Y	18:55

To review the "Site Options and Assessment Draft Report" for accuracy against evidence held, not as professionals in the field but as a council, comprising members with general knowledge from living within the parish.
And to agree observations to be shared with AECOM, to support clarity of or in addition to pre-submitted observations (on the form provided), for AECOM's consideration when finalising this report.

Meeting format: The report will be reviewed section by section, in consideration of pre-submitted forms, specifically considering the following:

a) Any typographical errors observed.
b) Any omissions, confirmed by evidence (photos, documents).
c) Any observed anomalies against planning documentation such as:
   i. National Policy Planning Framework
      National Planning Policy Framework - GOV.UK (www.gov.uk)
   ii. TVBC Local Plan
      Local Plan | Test Valley Borough Council

Note: AECOM can only consider **evidence supported** observations.

Meeting context: This meeting is one of many meetings of the Parish Council considering the NDP.

Why is this meeting important: The report includes a 'traffic light' rating for each site, indicating whether the site meets the test of being suitable, available and achievable (viable) for development and therefore appropriate for allocation. Red indicates the site is not appropriate for development. Amber indicates the site is less sustainable or may be appropriate for development if certain issues can be resolved or constraints mitigated. Further to the report being finalised by AECOM, the Parish Council will meet to consider adopting the report and agreeing next steps. Two likely next steps are that:

- Sites with a red traffic light, will be not be included in the 'Site Allocation' process.
- Sites with an amber traffic light will continue to the next stage of the process:
  Further to receiving and adopting the report from AECOM which is examining the NDP Evidence Base (expected February / March 2021), the evidence base will be extended to cover all sites with an amber traffic light. See page 3 of the Timeline and Next Steps.
